Fitting Room Security

The DETECT-IT Fitting Room Security can be used in fitting rooms to prevent that possible shoplifters remove security labels/hardtags from the merchandise.

A red LED is blinking every 2 seconds to indicate that the fitting room security unit (Tag Locator) is scanning the area inside the dressing room. On the front of this unit is a warning text indicating that when labels / hardtags will be removed an alarm will be triggered.

*Please note that this product is a pure preventive solution
